# Lake Holiday, Wing Lake, and Lake Rose Use Attainability Analyses

## Table of Contents

1.0	Executive Summary .....	i
1.1	Overview .....	i
1.2	Applicable Water Quality Goals.....	i
1.2.1	Nine Mile Creek Watershed District Goals.....	i
1.2.2	MPCA Water Quality Standards .....	ii
1.3	Lake Characteristics .....	iii
1.3.1	Lake Holiday .....	iv
1.3.2	Wing Lake .....	iv
1.3.3	Lake Rose .....	iv
1.4	Water Quality Problem Assessment .....	v
1.4.1	Baseline Lake Water Quality Status .....	v
1.4.2	Existing Water Quality .....	vi
1.4.2.1	Lake Holiday Existing Water Quality .....	vi
1.4.2.2	Wing Lake Existing Water Quality .....	vi
1.4.2.3	Lake Rose Existing Water Quality .....	vi
1.4.2.4	Impaired Waters .....	x
1.4.2.5	Public Perception of Water Quality in Lake Holiday, Wing Lake, and Lake Rose .....	x
1.4.3	Trend Analysis.....	x
1.4.4	Watershed Runoff Pollution .....	xi
1.4.4.1	Lake Holiday Watershed Runoff.....	xiv
1.4.4.2	Wing Lake Watershed Runoff.....	xiv
1.4.4.3	Lake Rose Watershed Runoff .....	xv
1.4.4.4	Direct Precipitation & Atmospheric Deposition .....	xvi
1.4.5	Pollution from Upstream Lakes (Lake Holiday and Wing Lake).....	xvi
1.4.6	Internal Phosphorus Loads .....	xvii
1.4.6.1	Sediment Phosphorus Release.....	xvii
1.4.6.2	Phosphorus Loading from Curlyleaf Pondweed .....	xvii
1.5	Aquatic Vegetation .....	xxi
1.5.1	Lake Holiday Macrophytes .....	xxi
1.5.2	Wing Lake Macrophytes .....	xxi
1.5.3	Lake Rose Macrophytes .....	xxi
1.6	Ecosystem and Fisheries.....	xxii
1.6.1	Phytoplankton Communities .....	xxii
1.6.2	Zooplankton Communities .....	xxiii
1.6.3	Fish Communities.....	xxiii

1.7	Conclusions .....	xxiii
1.7.1	Aquatic Plant Management .....	xxix
1.7.2	In-Lake Management.....	xxx
1.7.2.1	Internal Phosphorus Loading .....	xxx
1.7.2.2	Sediment Accumulation .....	xxx
1.7.3	Watershed Management .....	xxx
1.7.4	Public Participation .....	xxx
2.0	Introduction .....	1
2.1	Public Perception of Water Quality in Lake Holiday, Wing Lake, and Lake Rose.....	1
2.1.1	Survey Results .....	2
2.1.1.1	Results from Residents that Live on/near Lake Holiday, Wing Lake, or Lake Rose.....	2
2.1.1.2	Results from Watershed Residents.....	9
2.1.1.3	Results from Lake and Watershed Residents Regarding Lawn Care Practices.....	9
2.1.2	Compilation of Survey Comments .....	13
2.1.2.1	Survey Comments from Residents that Live on/near the Lakes .....	13
2.1.2.2	Survey Comments from Watershed Residents.....	15
2.2	Purpose and Process of the UAA .....	17
2.3	Watershed and Lake Water Quality Modeling Tools .....	18
2.4	Scope .....	19
2.5	General Framework of the UAA .....	19
2.5.1	Identification of Goals and Expectations.....	19
2.5.1.1	NMCWD Goals and Desired Uses.....	19
2.5.1.2	MPCA Impaired Waters List.....	19
2.5.1.3	Baseline Water Quality Prediction Methods .....	20
2.5.1.4	Water Quality Trend Analyses.....	21
2.5.2	Assessment of Current Conditions .....	21
2.5.3	Assessment of Future Conditions .....	22
2.5.4	Evaluation of Management Strategies.....	22
3.0	General Concepts in Lake Water Quality.....	24
3.1	Eutrophication .....	24
3.2	Trophic States .....	24
3.3	Limiting Nutrients .....	25
3.4	Stratification .....	26
3.5	Nutrient Recycling and Internal Loading .....	27
4.0	Identification of Goals and Expectations .....	30
4.1	NMCWD Goals for Lake Holiday, Wing Lake, and Lake Rose .....	30
4.1.1	Water Quantity Goals .....	30
4.1.2	Water Quality Goals .....	30
4.1.3	Aquatic Communities Goal .....	33

4.1.4	Recreational Use Goal .....	33
4.1.5	Wildlife Goal .....	33
4.2	Expected Benefits of Water Quality Improvements .....	34
4.2.1	Enhancement of Recreational Use.....	34
4.2.2	Improvements in Aquatic Habitat.....	34
5.0	Lake Basin and Watershed Characteristics .....	35
5.1	Lake Basin Characteristics .....	35
5.1.1	Lake Holiday .....	35
5.1.2	Wing Lake .....	36
5.1.3	Lake Rose .....	36
5.2	Watershed Characteristics .....	42
5.2.1	Present Land Use.....	43
5.2.2	Future Expected Land Use .....	44
5.3	Lake Inflows and Drainage Areas .....	44
5.3.1	Natural Conveyance Systems .....	44
5.3.2	Stormwater Conveyance Systems .....	44
5.3.3	Pumped Outlets .....	45
5.3.4	Groundwater Seepage Losses.....	45
6.0	Existing Water Quality.....	50
6.1	Water Quality .....	50
6.1.1	Data Collection.....	50
6.1.2	Baseline/Current Water Quality .....	61
6.1.2.1	Baseline Lake Water Quality Status.....	61
6.1.2.2	Lake Holiday Current (2008) Water Quality .....	63
6.1.2.3	Wing Lake Current (2008) Water Quality .....	63
6.1.2.4	Lake Rose Current (2008) Water Quality .....	64
6.1.2.5	Lake Holiday, Wing Lake, and Lake Rose Water Quality Trend Analysis .....	65
6.2	Nutrient Loading.....	66
6.2.1	External Loading Sources.....	66
6.2.1.1	Watershed Runoff .....	66
6.2.1.2	Inflow from Upstream Lakes .....	69
6.2.1.3	Direct Precipitation & Atmospheric Deposition .....	70
6.2.2	Internal Loads.....	77
6.2.2.1	Sediment Core Analysis.....	78
6.3	Aquatic Communities .....	80
6.3.1	Phytoplankton.....	80
6.3.2	Zooplankton.....	84
6.3.3	Macrophytes .....	88
6.3.3.1	Lake Holiday Macrophytes .....	88
6.3.3.2	Wing Lake Macrophytes .....	88

6.3.3.3	Lake Rose Macrophytes .....	89
6.3.3.4	Coontail, Purple Loosestrife, and Curlyleaf Pondweed .....	89
6.3.4	Fish and Wildlife .....	90
7.0	Water Quality Modeling for the UAA .....	91
7.1	Use of the P8 Model .....	91
7.2	Water Quality Model (P8) Calibration .....	92
7.2.1	Climatic Conditions .....	92
7.2.2	P8 Model Development .....	92
7.2.2.1	P8 Model – Stormwater Volume Calibration .....	93
7.2.2.2	P8 Model – Phosphorus Loading Calibration .....	93
7.2.3	Water Balance Development and Calibration .....	93
7.2.3.1	Lake Holiday Water Balance .....	93
7.2.3.2	Wing Lake Water Balance .....	94
7.2.3.3	Lake Rose Water Balance .....	95
7.2.3.4	Validation of P8 Runoff Results .....	95
7.3	In-Lake Modeling .....	106
7.3.1	Calibrating the In-Lake Models to Existing Water Quality .....	106
7.3.1.1	Estimating Spring-time Phosphorus Concentrations .....	106
7.3.1.2	Estimating Loading and Loss from Aquatic Macrophytes .....	108
7.3.1.3	Calculating Internal Loading from Lake Sediment .....	109
7.3.2	Results of the In-Lake Water Quality Model Calibration .....	111
7.4	Modeling Chlorophyll <i>a</i> and Secchi Disc Transparency .....	121
7.5	Use of the P8/In-Lake Models .....	122
8.0	Analysis of Future Conditions .....	127
8.1	Future Conditions Modeling Assumptions .....	127
8.1.1	Consistencies between Calibration Models and Existing/Future Conditions .....	127
8.1.1.1	Lake Outlet Elevations .....	127
8.1.1.2	Storm Sewer System .....	127
8.1.2	Future Land Use Changes .....	128
8.1.3	Future Lake Hydrology Changes .....	128
8.1.4	Future Storm Sewer Changes .....	128
8.2	Modeling Results .....	131
8.2.1	Climate Conditions .....	131
8.2.2	Water Quality Model Results under Existing Conditions .....	131
8.2.3	Water Quality Model Results under Future Conditions .....	131
8.2.3.1	Lake Holiday Future Water Quality .....	132
8.2.3.2	Wing Lake Future Water Quality .....	132
8.2.3.3	Lake Rose Future Water Quality .....	133
8.2.4	Predicted Future Conditions Lake Water Levels .....	138
9.0	Evaluation of Possible Management Initiatives .....	140

9.1	General Discussion of Improvement Scenarios.....	140
9.1.1	Structural BMPs .....	140
9.1.1.1	Wet Detention Ponds.....	141
9.1.1.2	Infiltration .....	142
9.1.1.3	Vegetated Buffer Strips.....	143
9.1.1.4	Oil and Grit Separators.....	144
9.1.1.5	Alum Treatment Plants.....	144
9.1.1.6	Iron-Enhanced Sand Filtration .....	145
9.1.2	Nonstructural BMPs .....	146
9.1.2.1	Public Education .....	146
9.1.2.2	Ordinances.....	146
9.1.2.3	Street Sweeping.....	146
9.1.2.4	Deterrence of Waterfowl.....	147
9.1.3	In-Lake BMPs .....	147
9.1.3.1	Removal of Benthivorous (Bottom-Feeding) Fish.....	148
9.1.3.2	Application of Alum (Aluminum Sulfate) .....	148
9.1.3.3	Iron Salt Applications with Hypolimnetic Aeration.....	149
9.1.3.4	Aquatic Vegetation (Curlyleaf Pondweed) Management.....	150
9.2	Feasibility Analysis .....	152
9.2.1	Statement of Problem .....	152
9.2.2	Selection and Effectiveness of Alternatives .....	158
9.2.2.1	Site-Specific Structural BMPs .....	158
9.2.2.2	In-Lake Best Management Practices.....	173
9.3	BMP Scenarios .....	179
9.3.1.1	BMP Scenario 8 – Alum Treatment in Lake Holiday, Wing Lake, and Lake Rose; Aquatic Vegetation Treatment in Wing Lake.....	179
9.3.1.2	BMP Scenario 10 – Alum Treatment in Lake Holiday, Wing Lake, and Lake Rose; Aquatic Vegetation Treatment in Lake Holiday and Wing Lake .....	180
9.3.1.3	BMP Scenario 11 – Alum Treatment in Lake Holiday, Wing Lake, and Lake Rose; Aquatic Vegetation Treatment in Lake Holiday, Wing Lake, and Lake Rose .....	181
9.3.1.4	BMP Scenario 13 – Watershed Infiltration in the Holiday-Wing-Rose Watersheds; Alum Treatment in Lake Holiday, Wing Lake, and Lake Rose; Aquatic Vegetation Treatment in Lake Holiday and Wing Lake, .....	181
9.3.1.5	BMP Scenario 16 – Iron-enhanced Sand Filtration of Lake Holiday Outflow; Alum Treatment in Wing Lake and Lake Rose.....	183
10.0	Discussion and Conclusions.....	185
10.1	Attainment of Stated Goals.....	185
10.1.1	Water Quantity Goals .....	185

10.1.2	Water Quality Goals .....	185
10.1.3	Aquatic Communities Goal .....	187
10.1.4	Recreational Use Goals .....	187
10.1.5	Wildlife Goals .....	188
10.2	Conclusions .....	192
10.2.1	Aquatic Plant Management .....	193
10.2.2	In-Lake Management.....	194
10.2.2.1	Internal Phosphorus Loading .....	194
10.2.2.2	Sediment Accumulation .....	194
10.2.3	Watershed Management and Structural BMPs.....	195
10.2.4	Public Participation .....	196
11.0	References .....	197

## List of Tables

Table EX-1	NMCWD Water Quality Management Goals .....	ii
Table EX-2	Estimated Ranges of Baseline/Background Water Quality .....	v
Table 2-1	Summary of Surveys sent and returned .....	2
Table 4-1	Lake Holiday, Wing Lake, and Lake Rose Management Table.....	32
Table 5-1	Stage-Storage-Discharge Relationship for Lake Holiday.....	41
Table 6-1	Lake Holiday 2008 Water Quality Data (City of Minnetonka).....	52
Table 6-2	Wing Lake 2008 Water Quality Data (NMCWD and CAMP).....	53
Table 6-3	Lake Rose 2008 Water Quality Data (City of Minnetonka and CAMP).....	54
Table 6-4	Estimated Ranges of Baseline/Background Water Quality .....	62
Table 6-5	Comparison of Lake Holiday, Wing Lake, and Lake Rose Internal Phosphorus Loading Rates to those of other Metro Area Lakes.....	79
Table 7-1	Precipitation Amounts for Various Climatic Conditions.....	92
Table 8-1	Modeled Summer-average Total Phosphorus, Chlorophyll <i>a</i> , and Secchi Disc Transparency under Future Conditions and Existing Conditions for Lake Holiday, Wing Lake, and Lake Rose.....	132
Table 8-2	Impact of Future Conditions Watershed Runoff plus Upstream Inflow on Phosphorus Loading in Lake Holiday, Wing Lake, and Lake Rose.....	134
Table 8-3	Modeled Existing and Future Water Surface Elevations for Lake Holiday, Wing Lake, and Lake Rose under Varying Climatic Conditions .....	138
Table 9-1	General Effectiveness of Stormwater BMPs at Removing Common Pollutants from Runoff .....	141
Table 9-2	Summary of BMP Scenarios Evaluated for Lake Holiday, Wing Lake, and Lake Rose.....	154
Table 9-3	Modeled Water Quality in Lake Holiday under Varying Climatic Conditions and BMP Scenarios (refer to Table 9-2).....	155
Table 9-4	Modeled Water Quality in Wing Lake under Varying Climatic Conditions and BMP Scenarios (refer to Table 9-2) .....	156
Table 9-5	Modeled Water Quality in Lake Rose under Varying Climatic Conditions and BMP Scenarios (refer to Table 9-2) .....	157
Table 9-6	Impact of Watershed Infiltration BMPs on Summer-average Total Phosphorus Concentrations in Lake Holiday, Wing Lake, and Lake Rose under Varying Climatic Conditions.....	159
Table 9-7	Impact of Iron-enhanced Sand Filtration of Lake Holiday Outflow on Summer Total Phosphorus Loading to Wing Lake under Varying Climatic Conditions .....	162
Table 9-8	Impact of In-lake Alum Treatment of Lake Holiday Outflow on Summer Total Phosphorus Loading to Lake Holiday and Wing Lake under Varying Climatic Conditions.....	173
Table 9-9	Impact of In-lake Alum Treatment of Wing Lake on Summer Total Phosphorus Loading.....	174
Table 9-10	Impact of In-lake Alum Treatment of Lake Rose on Summer Total Phosphorus Loading.....	175
Table 9-11	Impact of Aquatic Vegetation Treatment on Summer Total Phosphorus Loading to Lake Holiday, Wing Lake, and Lake Rose under Varying Climatic Conditions.....	177

## **List of Appendices**

- Appendix A Data Collection Methods
- Appendix B P8 Model Parameter Selection
- Appendix C Pond Data for the Holiday-Wing-Rose Watershed
- Appendix D Lake Holiday, Wing Lake, and Lake Rose 2008 Water Quality Data
- Appendix E Wing Lake and Lake Rose Biological and Fisheries Data
- Appendix F Lake Holiday, Wing Lake, and Lake Rose 2008 Macrophyte Surveys
- Appendix G BMP Cost Estimates
- Appendix H Lake Holiday, Wing Lake, and Lake Rose Sediment Core Analysis
- Appendix I Lake Holiday, Wing Lake, and Lake Rose Water Quality Trend Analyses
