RE: Master Water Steward Cost Share Grant Application

Background

Master Water Stewards (MWS) are required to complete capstone projects as part of the Master Water Steward training program. The District has agreed to fund their projects through our Cost Share program. Master Water Stewards work in partners to complete their capstones. A group from the 2018 cohort has submitted their grant application to start their capstone project.

Recommended Funding

Staff recommends accepting the MWS cost share grant proposal.

Applicant	Project Name	Type	Project Budget	Requested Funds	Recommended Funds
Kevin Velgersdyk	Raingarden	Residential	\$1,455.41	\$943.21	\$943.21

Kevin Velgersdsky, Raingardens, \$943.21

Cathie Briggs and Elizabeth Miller (Master Water Stewards) will assist in the installation of a raingarden at the property of Kevin Velgersdyk in Bloomington near Normandale Lake to reduce runoff into the street. The Master Water Stewards will also inform neighbors about raingarden functions and District cost share grants.

Request

Authorize the District Administrator to enter into a cost share agreement with the applicant for \$943.21, which includes a five-year maintenance agreement.
