Subject: Use of Discovery Point for Deer Management Program

Dear Randy:

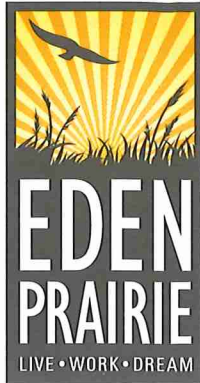

On behalf of the City of Eden Prairie, I am requesting permission to use Nine Mile Creek Watershed District property at Discovery Point for the City's 2019-20 Deer Management Program. The City has been conducting deer management throughout the City for over 20 years and would like to include the Cardinal Creek Conservation Area again this year. We are contracting with the United States Department of Agriculture and their staff has identified a much more desirable and safer site at Discovery Point to conduct management than sites that have been used in previous years. The use of any site within this property is subject to any special conditions or limitations that you or your staff recommends to our contractor. The reduction work is scheduled to begin in December and USDA staff will post the area when they are using the property for sharp shooting. The reduction program will be taking place after dark and the Eden Prairie Police will be notified when the sharp shooting is being conducted.

Please contact me at 952-949-8535 if you have questions.

Sincerely,

Matthew Bourne  
Parks and Natural Resources Manager
