RE: Permit & Water Resources Coordinator Report

Updates

- Began using triage system to prioritize inspections
 - May make up approx. half inspections per month
- Continuing to see permits close and stabilize as construction finishes on projects that worked through the summer
- Began meeting with city staff to better understand their inspection programs, requirements for winter erosion BMPs, particularly inlet protection
- Due to early freezing, plans to send out a pre-winter communication about erosion site prep is tentatively on hold
- Critical progress preparing the new cost share grant application and review process with Erica
- Guidance documents being graphically designed
- Began drafting options for requiring natural net erosion blanket

Continuing Activities

- Review and send permits as approved, including conditional and administrative approvals
- Intake and process materials from conditionally approved permits
- Improving and correcting content of guidance documents

Upcoming Activities

- Create necessary emergency response materials to meet OSHA requirements needed with purchase of AED
