DATE: July 6, 2020
RE: Transfer of maintenance easements and agreements as part of the Edina Streambank Restoration/Stabilization Project to the City of Edina

Background

As part of the District's Edina Streambank Project, The District has (or is in the process of) securing nine maintenance easements/agreements in the areas where work was done on private property. Because, as detailed in the overall maintenance plan/agreement between the City of Edina and NMCWD, the city is ultimately responsible for the inspection and maintenance of the project (although NMCWD will partner in the inspections and potential maintenance), NMCWD needs to transfer the maintenance easements/agreements to the City.

Recommended Action

Staff recommends adopting Resolution 20-04, to transfer the Edina Streambank Project maintenance easements and agreements to the City of Edina.
