FROM: Randy Anhorn
DATE: September 19, 2021
RE: Watershed-Wide Flood Risk Assessment (Atlas-14 Flood Risk and Resiliency-Phase 2) Update

Background/Information

As part of this agenda item, the Barr Engineering will provide a short update on where they are at on phase 2 of the Watershed-Wide Flood Risk Assessment.

In addition, questions stemming from Barr's August 18, 2021 update presentation will be highlighted for Board discussion (e.g., strategies, big ideas, cooperation and partnerships and discuss the perceived barriers to designing and implementing flood risk-reduction projects [city ordinances, property owners, space limitations, and topography limitations])

Request

No action is needed, the update is for informational purposes and to promote discussion.
