

Nine Mile Creek Watershed District Rules Schedule B – Financial Assurance Rates

Effective January 19, 2023

For projects on existing single-family residential properties \$10,000
Except that an applicant for a single-family residential project may elect to have the applicable financial assurance calculated in accordance with the rate schedule below.

For all other projects:

Rule	Performance Surety Amount
Wetlands Management (Rule 3.0)	\$5,000 + \$1,000/acre over 10 acres
Stormwater Management (Rule 4.0)	<ul style="list-style-type: none"> • Infiltration basins: \$12/sq ft • Rain gardens: \$12/sq ft • Underground storage: \$980/acre impervious treated • All other facilities: 125 percent of construction and maintenance costs • Chloride management plan: \$5,000
Erosion and Sediment Control (Rule 5.0)	\$2,500/acre disturbed, plus \$2.50/linear foot of erosion control required
Shoreline or Streambank Improvements (Rule 7.0)	\$5,000 or the total number of feet of shoreline or streambank affected times \$100
Sediment Removal (Rule 8.0)	Cost of project

The financial assurance required for permit (other than a permit for an existing single-family home project) will include a 10 percent contingency and 30 percent administrative-costs amount in addition to the amounts calculated according to the schedule above.

Minimum financial assurance amount (when a financial assurance is required): \$5,000
